

Symptoms

- ✓ Common Cold: Symptoms include stuffy nose, congestion and sneezing
- ✓ Strep Throat: White spots on tonsils, swollen lymph nodes in your neck, fever, and lack of cough
- ✓ COVID-19: Shares a lot of symptoms with the flu, but loss of smell and taste are specific to COVID-19
- ✓ Flu: Fever, chills, body aches, sore throat and headache

Treatment

Request a First Stop Health Virtual Urgent Care visit! Doctors can provide diagnosis and treatment. Treatment may include*:

- antiviral medication to shorten or even prevent the flu
- antibiotics to treat strep throat
- prescription cough medication
- over-the-counter medications and at-home remedies

*Providers at First Stop Health do not prescribe controlled substances. Costs according to your medical plan may apply for prescriptions.
